IEEE SGBIT (STB-10219)

Presents

IEEE WEEK

IN CELEBRATION OF

IEEE DAY

14-16 OCT 2026

6 EVENTS

- RETRACE
- CONQUER THE CANVAS
- CODE RELAY
- UNCHARTED
- PROMPT INJECTION
- PIXEL PERFECT

IEEE WEEK

IEEE SGBIT (STB-10219)

CONQUER THE CANVAS

RULES & REGULATIONS :

1. Each team must consist of exactly 2 members.
2. Participants will be provided with a base poster/design at the beginning of the event.
3. All poster designing must be done exclusively using Canva.
4. Participants may bring their own laptops. PCs will also be provided at the venue.
5. New elements, instructions, or requirements will be introduced progressively during the event.
6. Participants must incorporate the given elements into their existing poster without starting over.
7. All elements must be incorporated creatively and appropriately, following the given instructions.
8. The use of AI tools or AI-generated content is strictly prohibited.
9. The use of copied designs, templates from external sources, or plagiarised content is strictly prohibited.
10. Participants must complete and submit their final poster within the specified time limit.
11. Participants must follow all instructions given by the event coordinators.
12. The decision of the judges will be final and binding.

RULES AND REGULATIONS:

- 1) Each Team must consist of exactly 2 members
- 2) Participants must solve the ARG in intended manner
- 3) Each team must carry their own laptop/smartphones
- 4) Do not modify, delete or interfere with event files/accounts
- 5) Sharing clues or answers with other teams is prohibited
- 6) The use of AI models and AI tools is permitted.
- 7) The event rules may be changed by the Co-ordinators based on the situations

Recommended Resources: Laptops, Earphones/Headphones, Notepad & Pen.

NOTE: Registered teams must be present at the venue on or before the event time to make sure they won't miss any of the instructions and details about the event explained by the co-ordinators.

IEEE WEEK

IEEE SGBIT (STB-10219)

PIXEL PERFECT

RULES & REGULATIONS :

1. Each team shall consist of 2 members.
2. Editing, filters, AI-generated images, or manipulated photographs are not allowed.
3. Participants must use one designated device per team.
4. Each team will be given [45] minutes for round 1 and [30] minutes for round 2 to complete the challenge.
5. The decision of the judging panel/organizers will be final and binding.
6. The team will be held responsible if any damage is caused to campus property.
7. Do not disturb ongoing classes, laboratories, offices, or other campus activities.
8. If the above rules and regulations are not followed, the team will be disqualified.

GAMEPLAY :

- The event consists of 2 rounds.
- Each team will receive a set of modified/blurred campus photographs.
- Teams must identify the location shown in each photograph.
- After identifying a location, the team must physically reach the spot and capture a photograph.
- The newly captured photograph must represent the same location and approximately the same viewpoint as the given image.
- Teams must complete the task within the allotted time.
- The teams will be judged based on the accuracy of the captured photographs with the help of an AI algorithm.

JUDGING CRITERIA :

The recreated photographs will be compared with the original reference images using an AI-based image comparison algorithm. Accuracy of location, viewpoint, composition, and overall visual similarity will contribute to the final evaluation.

IEEE WEEK

IEEE SGBIT (STB-10219)

PROMPT INJECTION WAR

RULES & REGULATIONS :

1. Format

- Teams: 2 members — 1 Attacker + 1 Defender.
- Match: 15 minutes, played as 3 rounds of 5 minutes. Both teams attack and defend at the same time.
- Tournament: Each team plays 3 matches; scores are added up. Top 3 teams on the final leaderboard win.

2. Attacker

- Try to make the opponent's AI reveal its secret using prompt-based techniques only (prompt injection, role-play, social engineering, multi-turn, encoding, etc.).
- Use only the official competition interface. No access to anyone's device, account, network, backend or platform.

3. Defender

- Write and improve a defense prompt that keeps your team's secret safe; it can be updated between rounds.
- Your AI must still answer normal, legitimate requests. Blocking everything costs utility points.

4. Scoring (100 points per match)

- Attack — 40: how much of the opponent's secret you extract (partial leaks earn partial points).
- Defense — 40: how much of your own secret stays protected.
- Utility — 20: how well your AI handles legitimate requests.
- Tie-breaker: total score → Attack score → Defense score → Utility score → 5-minute sudden-death match.

5. Code of Conduct

- Be respectful. No harassment, cheating, impersonation or disruption.
- Do not interfere with another team's workstation, session or network.
- Do not submit real personal data, real credentials, malware or harmful payloads.
- Do not share another team's secret or help another team during a match.
- Follow the organizers' policy on using external AI tools.

6. Disqualification

- Hacking or accessing the platform, backend or infrastructure, or getting secrets by any means other than the AI challenge.
- Stealing credentials, hijacking sessions, or causing disruption / denial of service.
- Using prohibited tools, or tampering with scores, logs or timers.

7. Judging

- Platform logs (prompts, responses, timestamps, scores) are the official record.
- The organizers' decision is final.

IEEE WEEK

IEEE SGBIT (STB-10219)

CODE RELAY

RULES & REGULATIONS :

1. Each team must consist of 3 members.
2. AI tools, internet access, and external assistance are strictly prohibited.
3. Participants must switch off their mobile phones and submit them to the coordinators before the event.
4. Teams must use only the resources provided by the organizers.
5. Team members may discuss only during the designated discussion period before coding.
6. Only one member can code at a time. Official Event Guidelines
7. No communication, discussion, or explanation is allowed between team members once coding begins.
8. Team members cannot write comments in their code.
9. Copying code or solutions from other teams is strictly prohibited.
10. Participants must maintain fair and ethical conduct throughout the event.
11. Participants must follow the instructions of organizers and volunteers.
12. Coding must stop immediately when the allocated time ends.
13. Participants must not disturb or interfere with other teams.
14. The decision of the organizing committee will be final.

COMPETITION FORMAT:

Teams of three receive a problem statement and get designated discussion time to understand and plan their approach. Coding then follows in a relay format, with one member coding at a time and the next member taking over when the allocated turn ends. Communication between team members is not allowed during active coding.

Round 1

- Two easy-level problem statements will be given.
- Problem 1: 5 minutes discussion/planning + 15 minutes relay coding.
- Problem 2: 5 minutes discussion/planning + 15 minutes relay coding.
- During coding, members take turns and receive equal coding time.
- Only one problem includes a mini-task and a hint.

Round 2

- One medium-level and one easy-level problem will be given.
- Medium problem: 8 minutes discussion/planning + 30 minutes relay coding.
- Easy problem: The team chooses one member to code for the final 15 minutes.
- The other two team members can't communicate with person coding at that time.
- Only one problem includes a mini-task and hint; other must be solved without hint.
- During relay coding, members take turns and receive equal coding time.

IEEE SGBIT (STB-10219)

UNCHARTED

RULES & REGULATIONS:

1. Each team shall consist of 3 members.
2. Teams must cooperate and compete fairly.
3. No participant may intentionally damage, remove, hide or alter college property or event materials.
4. Participants must not interfere with classes, staff, other students or other events.
5. Participants must not steal, copy or tamper with another team's clues or materials.
6. Outside assistance from non-participants is prohibited.
7. Phones, smartwatches and other electronic devices are prohibited during the event.
8. Participants must follow the co-ordinator's and volunteer's instructions at all times.
9. Participants must respect campus property and maintain cleanliness.

NOTE : Registered teams must be present at the venue on or before the event time to make sure they won't miss any of the instructions and details about the event explained by the co-ordinators
